

Foxway Value Recovery

Simple and worry free

Sell your company's IT equipment through Foxway's global sales organization

Protect the company brand

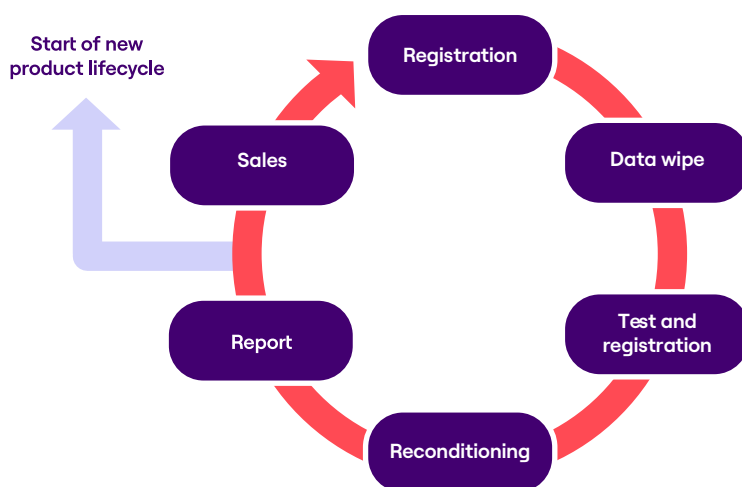

Complete traceability of how refurbished products and data are handled

Foxway buy and sell used mobiles, computers, tablets and other IT equipment

When you want to dispose old devices, we can get the maximum value out of them by giving them a second life. We ensure that all data is erased and prepares the units for the market before being sold through our global network.

This is how we sell used devices:

Entry Control/Registration

Upon arrival at Foxway facilities (Växjö , Tartu and Sandefjord) a check is made to ensure that the delivery in accordance with the agreed inventory list. All products serial numbers are registered and IMEI.

Memory Media Data Deletion

We use worldleading tool for erasing products with memory media.

Test and inspection

Each device is evaluated and tested to see of the device worth selling or whether it should be recycled.

Reconditioning

Consists of anonymization, remove stickers, vacuum cleaning Internal and external cleaning and polishing of the device.

Sales of products

Sales are conducted through Foxway global sales organization. We use partners for recycling and destruction of devices.

Customer Portal

Through our customer portal you can easily follow your products through the whole process, where reports and deletion certificates are available.
