Foxway Managed Print Services

Subscription-based hardware lifecycle management

Flexible and scalable solution – both device and service with monthly fee

Quick service and express replacement services (NBD)

Secure and environment friendly dispose at EOL.

Foxway helps you with print- and workflow services and help companies to increase productivity, lower costs and aquire complete economic control.

End-users today use different types of devices in their daily work, such as computers, tablets,smart phones, printers and multifunction printers. As the workforce changes toward more agile and mobile behavior, printers and workflows need integration with legacy back-end systems as well as cloud solutions without compromising security, enterprise IT policy, regulatory compliance, user-friendliness, or cost control.

Foxway Managed Print Services, is a modular printing service adapted for large companies and organizations that supports both existing as well as new printing environments with hardware, software, licensing and the delivery of advanced solutions for the digital office. The lifecycle management concept helps customers and organizations to get more out of the investment they have made in their IT infrastructure through control, scalability and financial overview.

All-in-one solution:

+ Get control of time
+ Get control of cost
+ Secure
+ Sustainable
+ Up- or downsize

+ Agnostic
+ Compliance
+ Optimize usage
+ Always The Latest Technology
