

Make **Mac** Easy – MME

We help organizations make the Mac environment the simplest for IT and the best for the end user

MME is a service that helps organizations quickly and efficiently get started with or develop their IT environment for MacBooks.

We evaluate your current setup and provide recommendations on how to improve your Mac IT infrastructure.

We configure Apple Business Manager/ Apple School Manager and MDM, as well as deployment and management of SSO.

We help design a Mac ecosystem and Proof of Concept (POC), and define goals for pilot usage.

Free Choice

In today's competitive market for talent, we at Foxway believe that offering freedom of choice when it comes to computers is a crucial part of creating a modern and attractive workplace. At Foxway, we recognize the importance of individual freedom, and we support you with expertise in consulting, procurement, management, support, and lifecycle services. We believe everyone deserves to work on the device they prefer.

Ready?

Foxway's Mac specialists help you analyze your organization to ensure you're ready to implement (or improve) your Mac environment. This includes analyzing stakeholders, security requirements, policies, and resources.

Target audience:

- Medium to large organizations in both the private and public sector
- Organizations that want to provide their employees with a modern, sustainable work environment characterized by flexibility and accessibility
