

Device as a Service for mobile

A **complete circular solution** with one partner

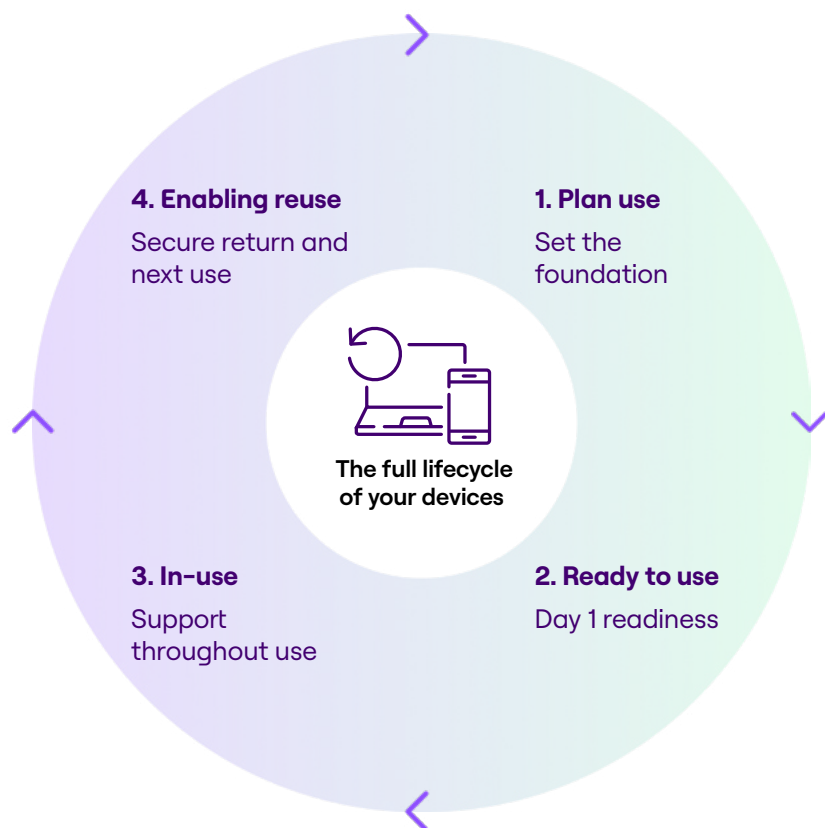

Foxway brings mobile devices, lifecycle services and Foxway Digital Platform together in **one DaaS solution covering the full lifecycle**, from device selection and configuration to repairs, takeback and reuse.

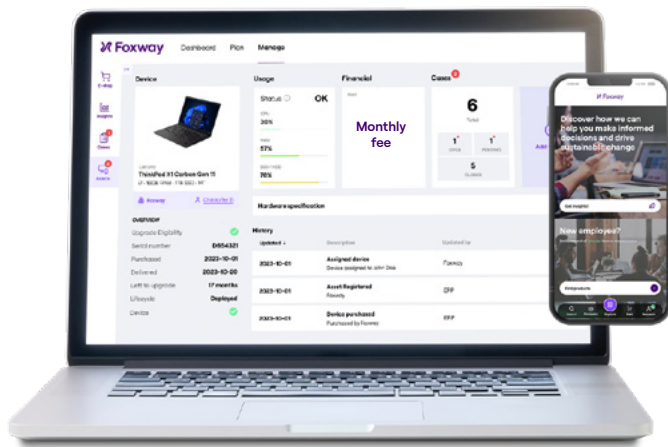

Choose **new and premium refurbished devices** to match your business needs. Extend your existing Foxway DaaS model to mobile, or bring computers and mobile devices together from the start.

A complete solution

- **Full lifecycle management**
From planning and onboarding to repairs, secure takeback and erasure processes (Blancco) and reuse.
- **One platform for visibility & control**
Ordering, asset management, data and reporting, with visibility down to user level.
- **Ready to use**
Mobile devices configured for your IT environment and delivered according to agreed requirements.
- **Global service and logistic capabilities**
Reaching up to 170+ countries.
- **Predictable monthly cost**
Devices and agreed lifecycle services combined in a competitive monthly fee per device.

One platform for visibility & control

Foxway Digital Platform brings ordering, asset management and reporting together for computers and mobile devices. Visibility down to user level supports everyday decisions and lifecycle planning.

- Device, user and lifecycle information
- Financial data and cost allocation
- Sustainability data and reporting

New and premium refurbished

Choose mobile devices to match user needs and company policies, including premium refurbished options.

Repairs and internal redeployment help keep devices in use. When they are returned, secure handling and documented data erasure prepare them for the next step.

Up to **95%** lower carbon footprint for a refurbished device compared to a new device**

Up to 2 years warranty for mobiles.

Cost-effective alternative from start to end-of-term.

Services to match your mobile needs

- **Employee Choice**
Device choice within company policies, with employee co-payment options where agreed.
- **eSIM Provisioning**
Activation, transfer and deactivation connected to the device lifecycle.*
- **Express Replacement**
Receive a ready-to-use replacement device via express delivery and return the faulty device in the same packaging.
- **Express Replacement + Damage Cover**
Adds protection for eligible accidental damage to Express Replacement at a predictable monthly cost. No deductible or additional charges for approved claims.

Bring mobile into your Foxway DaaS setup. Talk to us about the right devices and services for your organization.

* eSIM Provisioning depends on supported operators and the agreed customer setup. Service availability and terms apply.
